

On Android (using Chrome browser)

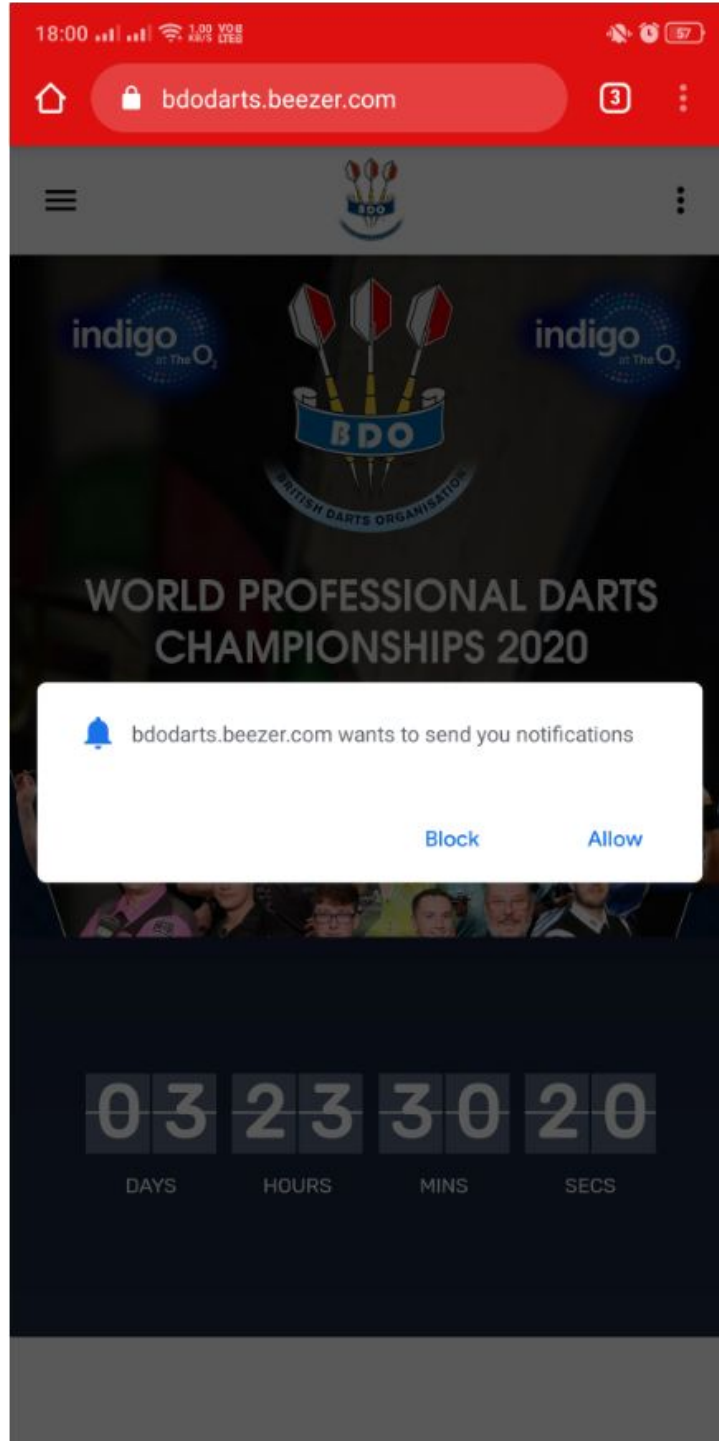

Step 1: Insert the app URL on the address bar of your chrome browser. You will be prompted to Allow or Block Push Notifications then you will be asked to install the app by clicking the banner popup at the bottom of the screen.

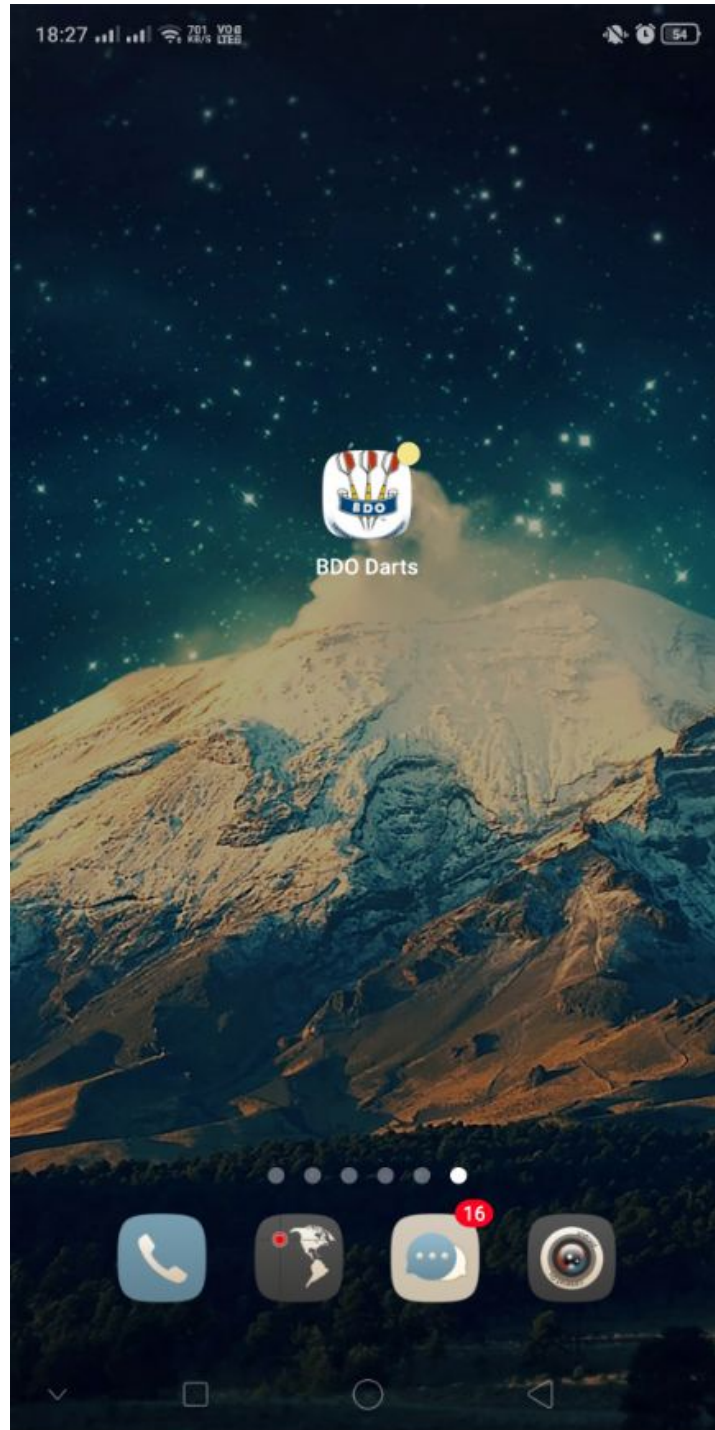

Step 2: After clicking the 'Add to Home screen' link you can then click on add button. (If you have dismissed the prompt you can add manually by choosing Add to Home Screen from the Settings menu of the browser).

Step 3: Click on Allow notifications if you wish to receive push notifications on your device.

Step 4: Your Beezer app is now installed to the Home Screen and a dot will appear showing new notifications have been received.

On iOS (using safari browser)

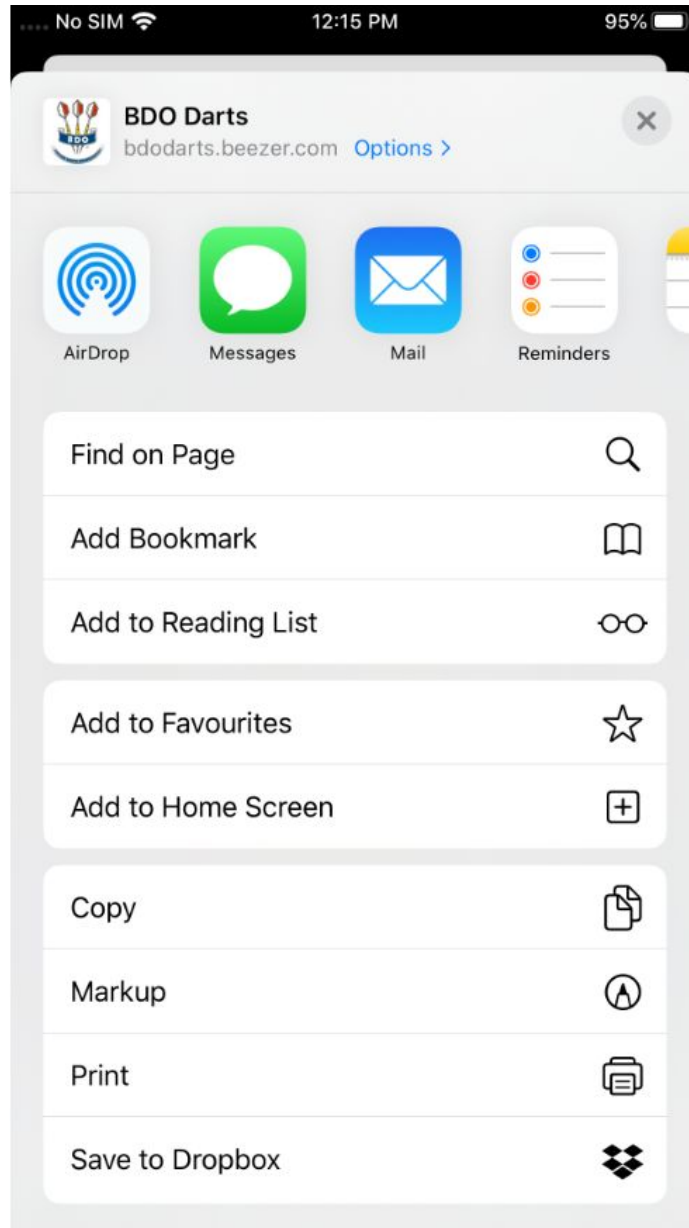

Step 1: You will see the app in the browser and a popup to install the app and 'ADD TO HOME SCREEN' will appear at the bottom of the screen.

Step 2: When you click the blue "ADD TO HOME SCREEN" button you will then see instructions for how to add to the home screen on iOS

Step 3: Tap the relevant icon then press the Add to Home Screen icon (note you may need to scroll to see the Icon).

Step 4: You can then click 'Add' at the top of the screen to complete the Install process. Your Progressive Web App will now be accessible from the home screen of your iOS device.
